Türk Ekonomi Bankası A.Ş.
Istanbul

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ

**INDEPENDENT ACCOUNTANTS' LIMITED REVIEW REPORT
FOR THE PERIOD JANUARY 1, 2010 – MARCH 31, 2010**

We have reviewed the accompanying balance sheet of Türk Ekonomi Bankası A.Ş. ("The Bank") as at March 31, 2010 and the related statements of income, changes in shareholders' equity, cash flows for the period then ended. These financial statements are the responsibility of the Bank's management. As independent accountants our responsibility is to issue a report based on the review performed on these financial statements.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review is principally limited to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information, it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed an audit and accordingly we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements do not give a true and fair view of the financial position, the results of its operations and its cash flows, of the Bank for the period ended March 31, 2010 in accordance with the prevailing accounting principles and standards set out as per the Article No: 37 of the Banking Act No: 5411, and other regulations, communiqués and circulars in respect of accounting and financial reporting and pronouncements made by Banking Regulation and Supervision Agency.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION

I. History of the Bank, Including its Incorporation Date, Initial Legal Status and Amendments to Legal Status, if any

Türk Ekonomi Bankası Anonim Şirketi (“the Bank”), which had been a local bank incorporated in Kocaeli in 1927 under the name of Kocaeli Halk Bankası T.A.Ş., was acquired by the Çolakoğlu Group in 1982. Its title was changed as Türk Ekonomi Bankası A.Ş. and its headquarters moved to Istanbul.

II. Explanation on the Bank’s Capital Structure, Shareholders of the Bank who are in Charge of the Management and/or Auditing of the Bank Directly or Indirectly, Changes in These Matters (if any), and the Group the Bank Belongs to

As of March 31, 2010 and December 31, 2009 the shareholders’ structure and their respective ownerships are summarized as follows:

Name of shareholders	Current Period		Previous Period	
	Paid in capital	%	Paid in capital	%
TEB Mali Yatırımlar A.Ş.	926,796	84.25	926,796	84.25
Publicly Traded	171,966	15.63	171,966	15.63
Other Shareholders	1,238	0.12	1,238	0.12
	1,100,000	100.00	1,100,000	100.00

As of March 31, 2010, Bank’s paid-in-capital consists of 1,100,000,000 shares of TRY 1.00 (full TRY) nominal each.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

SECTION THREE
ACCOUNTING PRINCIPLES

I. Basis of Presentation

The Bank prepares financial statements and notes according to Communiqué on Banks' Accounting Practice and Maintaining Documents, Turkish Accounting Standards (TAS), Turkish Financial Reporting Standards (TFRS), other regulations, communiques and circulars in respect of accounting and financial reporting and pronouncements made by Banking Regulation and Supervision Agency (BRSA), Turkish Commercial Code and Tax Legislation.

The prior period financial statements are presented in line with the principles of TAS No:1 "Fundamentals of Preparing and Presenting Financial Statements" published in the Official Gazette on January 16, 2005 with No: 25702, and in accordance with Turkish Accounting Standards and Turkish Financial Reporting Standards; and other principles, methods and explanations about accounting and financial reporting issued by the BRSA. Certain reclassifications have been made to the prior year financial statements in order to comply with the current year presentation whenever required. The reclassifications in the prior year financial statements are presented in the table below:

<u>INCOME STATEMENT</u>	<u>31.03.2009</u>
Other Interest Income (Increase / (Decrease))	2,171
Other Interest Expense (Increase / (Decrease))	(15,496)
Gains from Derivative Financial Instruments (Increase / (Decrease))	(2,171)
Losses from Derivative Financial Instruments (Increase / (Decrease))	15,496

II. Explanations on Usage Strategy of Financial Assets and Foreign Currency Transactions

The Bank aims to develop and promote products for the financial needs of each customer such as SMEs, multinational companies and small individual investors in line with Banking Legislation. The primary objective of the Bank is to increase profitability with optimum liquidity and minimum risk while fulfilling customer needs. Thus, the Bank uses 34% on average of its resources in liquid assets, as well as intending for the highest possible yield with effective maturity management.

The Bank aims at creating an optimum maturity risk and working with a positive margin between cost of resource and product yield in the process of asset and liability management.

As a component of risk management strategy of the Bank, risk bearing short positions of currency, interest or price movements is performed only by the Treasury Asset-Liability Management department using the limits defined by the Board of Directors. The Asset-Liability Committee manages the maturity mismatches while deciding the short, medium and long term strategies as well as adopting the principle of positive balance sheet margin as a pricing policy.

The Board of Directors allows a purchase risk in treasury operations and individual limits are defined by the Board of Directors for each product.

The Bank's hedging activities for the currency risk due to foreign currency available-for-sale equity instruments are described under the Currency Risk section; and the Bank's hedging activities from interest rate risk arising from fixed interest rate deposits and floating interest rate borrowings are described in detail under Interest Rate Risk section.

The Bank's Asset-Liability Committee approves the trading of various derivative instruments such as currency swaps, forwards and similar derivatives to hedge interest and currency exchange risks in line with the balance sheet structure.

NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

III. Explanations on Forward and Option Contracts and Derivative Instruments

Fair values of foreign currency forward and swap transactions are determined by comparing the period end Bank foreign exchange rates with the contractual forward rates discounted to the balance sheet date with the prevailing current market rates. The resulting gain or loss is reflected to the income statement.

In the assessment of fair value of interest rate swap instruments, interest amounts to be paid or to be received due to/from the fixed rate on the derivative contract are discounted to the balance sheet date with the current applicable fixed rate in the market that is prevailing between the balance sheet date and the interest payment date, whereas interest amounts to be paid or to be received due to/from the floating rate on the derivative contract are recalculated with the current applicable market rates that are prevailing between the balance sheet date and the interest payment date and are discounted to the balance sheet date again with the current applicable market rates that are prevailing between the balance sheet date and the interest payment date. The differences between the fixed rate interest amounts and floating rate interest amounts to be received/paid are recorded in the profit/loss accounts in the current period.

The fair value of call and put option agreements are measured at the valuation date by using the current premium values of all option agreements, and the differences between the contractual premiums received/paid and the current premiums measured at valuation date are recognized in the statement of income.

Futures transactions are valued on a daily basis by the primary market prices and related unrealized gains or losses are reflected in the income statement.

The valuation of CDS transactions are based on discounting the differences between the existing and recalculated payment plans to the valuation date with current CDS interest rates.

As of July 1, 2008, the Bank has adopted fair value hedge accounting in order to avoid the effects of interest rate changes in the market by matching a portion of its swap portfolio with its loan portfolio.

While the Bank recognizes the fair value changes of the hedged items in the “other interest income” and “other interest expense” accounts, it recognizes the fair value changes of the hedging instruments related to the same period in the “gains/(losses) from derivative financial instruments” account.

Additionally, the difference between the fair value and carrying value of the hedged items as of the application date of hedge accounting is amortized based on their maturities and recognized in “other interest income” and “other interest expense” accounts.

IV. Explanations on Interest Income and Expenses

Interest income and expense are recognized in the income statement for all interest bearing instruments whose cash inflows and outflows are known on an accrual basis using the effective interest method. In accordance with the related regulation, realized and unrealized interest accruals of the non-performing loans are reversed and interest income related to these loans are recorded as interest income only when collected.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

V. Explanations on Fees and Commission Income and Expenses

Fees for various banking services are recorded as income when collected and prepaid commission income on cash and non-cash loans is recorded as income by using effective interest rate in the related period.

Fees and commissions for funds borrowed paid to other financial institutions, as part of the transaction costs, are recorded as prepaid expenses by using effective interest rate and are expensed on the related periods.

The dividend income is reflected to the financial statements when the profit distribution is realized by the associates and subsidiaries.

VI. Explanations on Financial Assets

Financial instruments comprise financial assets, financial liabilities and derivative instruments. Risks related to these activities form a significant part among total risks the Bank undertakes. Financial instruments affect liquidity, market, and credit risks on the Bank's balance sheet in all respects. The Bank trades these instruments on behalf of its customers and on its own behalf.

Basically, financial assets create the majority of the commercial activities of the Bank. These instruments expose, affect and diminish the liquidity, credit and interest risks in the financial statements.

All regular way purchases and sales of financial assets are recognized on the settlement date i.e. the date that the asset is delivered to or by the Bank. Settlement date accounting requires (a) accounting of the asset when acquired by the institution and (b) disposing of the asset out of the balance sheet on the date settled by the institution; and accounting of gain or loss on disposal. In case of application of settlement date accounting, the institution accounts for the changes that occur in the fair value of the asset in the period between commercial transaction date and settlement date as in the assets that the institution settles.

Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Changes in fair value of assets to be received during the period between the trade date and the settlement date are accounted for in the same way as the acquired assets.

The methods and assumptions used in determining the reasonable estimated values of all of the financial instruments are described below.

Cash, Banks, and Other Financial Institutions

Cash and cash equivalents comprise cash on hand, demand deposits, and highly liquid short-term investments with maturity of 3 months or less following the purchase date, not bearing risk of significant value change, and that are readily convertible to a known amount of cash. The book value of these assets approximates their fair values.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

VI. Explanations on Financial Assets (continued)

Financial Assets at Fair Value Through Profit and Loss

Trading securities are securities which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio with a pattern of short-term profit taking.

Trading securities are initially recognized at cost. Transaction costs of the related securities are included in the initial cost. The positive difference between the cost and fair value of such securities is accounted for as interest and income accrual, and the negative difference is accounted for as "Impairment Provision on Marketable Securities".

Held to Maturity Investments and Financial Assets Available for Sale

Investments held to maturity include securities with fixed or determinable payments and fixed maturity where there is an intention of holding till maturity and the relevant conditions for fulfillment of such intention, including the funding ability other than loans and receivables.

Available for sale financial assets include all securities other than loans and receivables, securities held to maturity and securities held for trading.

Marketable securities are initially recognized at cost including the transaction costs.

After the initial recognition, available for sale securities are measured at fair value and the unrealized gain/loss originating from the difference between the amortized cost and the fair value is recorded in "Marketable Securities Valuation Differences" under the equity. Fair values of debt securities that are traded in an active market are determined based on quoted prices or current market prices. In the absence of prices formed in an active market, fair value of these securities is determined using the prices declared in the Official Gazette or other valuation methods stated in TAS.

After initial recognition, held to maturity investments are measured at amortized cost by using effective interest rate less impairment losses, if any.

The interests received from held to maturity investments are recorded as interest income.

There are no financial assets that have been previously classified as held to maturity investments but cannot be currently classified as held to maturity for two years due to "tainting" rule.

The Bank classifies its securities as referred to above at the acquisition date of related assets.

The sale and purchase transactions of the held to maturity investments are recorded on a settlement date basis.

Loans and Provisions for Impairment

Loans are financial assets those generated by lending money and exclude those that are held with the intention of trading or selling in the near future.

The Bank initially records loans and receivables at cost. In subsequent periods, in accordance with TAS, loans are measured at amortized cost using effective interest rate method.

Provision is set for the loans that may be doubtful and the amount is charged in the current period income statement. The provisioning criteria for non-performing loans are determined by the Bank's management for compensating the probable losses of the current loan portfolio, by evaluating the quality of loan portfolio, risk factors and considering the economical conditions, other facts and related regulations.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

VI. Explanations on Financial Assets (continued)

Loans and Provisions for Impairment (continued)

Specific reserves are provided for Group III, IV and V loans in accordance with the regulation on “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” published in the Official Gazette No. 26333 dated November 1, 2006 which was amended with the communiqué published in the Official Gazette No. 27119 dated January 23, 2009. These provisions are reflected in the income statement under “Provision and Impairment Expenses - Special Provision Expense”. The collections made regarding these loans are first deducted from the principal amount of the loan and the remaining collections are deducted from interest receivables.

The collections made related to loans for which provision is made in the current period are reversed from the “Provision for Loans and Other Receivables” account in the income statement, and related interest income is credited to the “Interest Received from Non-performing Loans” account.

Releases of loan loss provisions are reversed from the “Provision and Impairment Expenses - Special Provision Expense” account.

In addition to specific loan loss provisions, within the framework of the regulation and principles referred to above; the Bank records general loan loss provision for loans and other receivables. The Bank calculated the general loan provision as 0.5% for cash loans and other receivables, and 0.1% for non-cash loans until November 1, 2006. Subsequent to the change in the regulation on “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” published in the Official Gazette No. 26333 dated November 1, 2006; Bank started to book general loan loss provision of 1% for cash loans and other receivables; and 0.2% for non-cash loans on the increase in the cash and non-cash loan portfolio as compared to their October 31, 2006 balances whereas allocating 0.5% general loan loss provision for cash loans and other receivables, and 0.1% for non-cash loans for the balances as of October 31, 2006. Together with the change in the same regulation made on February 6, 2008, the Bank started to book general loan loss provision of 2% for cash loans under watch-list and 0.4% for non-cash loans under watch-list.

VII. Explanations on Impairment of Financial Assets

At each balance sheet date, the Bank evaluates the carrying amounts of its financial asset or a group of financial assets to determine whether there is an objective indication that those assets have suffered an impairment loss or not. If any such indication exists, the Bank determines the related impairment.

A financial asset or a financial asset group incurs impairment loss only if there is an objective indicator related to the occurrence (or nonoccurrence) of one or more than one event (“loss event”) after the first journalization of that asset; and such loss event (or events) causes, an impairment as a result of the effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group. Irrespective of high probability the expected losses caused by the future events are not journalized.

VIII. Explanations on Offsetting of Financial Assets and Liabilities

Financial assets and liabilities are offset when the Bank has a legally enforceable right to set off, and the intention of collecting or paying the net amount of related assets and liabilities or the right to offset the assets and liabilities simultaneously.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

IX. Explanations on Sales and Repurchase Agreements and Lending of Securities

The sales and purchase of government securities under repurchase agreements made with the customers are recorded in balance sheet accounts in accordance with the Uniform Chart of Accounts. Accordingly in the financial statements, the government bonds and treasury bills sold to customers under repurchase agreements are classified under securities held for trading, available for sale and held to maturity depending on the portfolio they are originally included in and are valued according to the valuation principles of the related portfolios.

Funds obtained from repurchase agreements are classified as a separate sub-account under money markets borrowings account in the liabilities.

These transactions are short-term and consist of domestic public sector debt securities.

The income and expenses from these transactions are reflected to the “Interest Income on Marketable Securities” and “Interest Expense on Money Market Borrowings” accounts in the income statement.

As of March 31, 2010, the Bank does not have any reverse repo transactions (December 31, 2009 - None).

As of March 31, 2010, the Bank does not have any marketable securities lending transaction (December 31, 2009 - None).

X. Explanations on Assets Held for Sale, Discontinued Operations and Liabilities Related to Those Assets

Assets held for sale are those under a plan prepared by the management regarding the sale of the asset to be disposed (or else the group of assets), together with an active program for determination of buyers as well as for the completion of the plan. Also the asset (or else the group of assets) shall be actively marketed in conformity with its fair value. On the other hand, the sale is expected to be journalized as a completed sale within one year after the classification date; and the necessary transactions and procedures to complete the plan should demonstrate the fact that the possibility of making significant changes or canceling the plan is low.

The Bank does not have any assets held for sale.

A discontinued operation is a division of a bank that is either disposed or held for sale. Results of discontinued operations are included in the income statement separately. The Bank does not have any discontinued operations.

XI. Explanations on Goodwill and Other Intangible Assets

There is no goodwill regarding the investments in associates and subsidiaries.

Intangible assets are accounted for at restated cost until December 31, 2004 in accordance with inflation accounting and are amortized with straight-line method, after December 31, 2004 the acquisition cost and any other cost incurred so as to prepare the intangible asset ready for use less reserve for impairment, if any, and amortized on a straight-line method. The cost of assets subject to amortization is restated after deducting the exchange differences, capitalized financial expenses and revaluation increases, if any, from the cost of the assets.

The other intangible assets of the Bank comprise mainly softwares. The requirements of the Turkish Tax Procedural Code are taken into consideration in determining the useful lives and no other specific criteria are used. Useful lives of such assets acquired prior to 2004 are determined as 5 years and for the year 2004 and forthcoming years as 3 years. Softwares used are mainly developed within the Bank by the Bank’s personnel and the related expenses are not capitalized. Softwares are purchased only in emergency cases and for special projects.

There are no anticipated changes in the accounting estimates about the amortization rate and amortization method and residual values that would have a significant impact in the current and future periods.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

XII. Explanations on Tangible Fixed Assets

Properties are accounted for at their restated costs until December 31, 2004; after December 31, 2004 the acquisition cost and any other cost incurred so as to prepare the fixed asset ready for use are reflected, less reserve for impairment, if any. The straight-line method of depreciation is used for buildings and useful life is considered as 50 years. Leasehold improvements are depreciated over the lease period by straight-line method.

Other tangible fixed assets are accounted for at their restated costs until December 31, 2004; afterwards the acquisition cost and any other cost incurred so as to prepare the fixed asset ready for use are reflected less reserve for impairment, if any, and depreciated on a straight-line method. Depreciation of assets held less than one year as of the balance sheet date is accounted for proportionately. There has been no change in the depreciation method applied in the current period. The annual rates used, which approximate rates based on the estimated economic useful lives of the related assets, are as follows:

	%
Buildings	2
Motor vehicles	20
Furniture, fixtures and office equipment and others	3 – 50

Gain or loss resulting from disposals of the tangible fixed assets is reflected to the income statement as the difference between the net proceeds and net book value.

Maintenance costs of tangible fixed assets are capitalized if they extend the economic useful life of related assets. Other maintenance costs are expensed.

There are no pledges, mortgages or other restrictions on the tangible fixed assets.

There are no purchase commitments related to the tangible fixed assets.

There are no anticipated changes in the accounting estimates, which could have a significant impact in the current and future periods.

The Bank employs independent appraisers in determining the current fair values of its real estates at year ends. As of March 31, 2010, there is a provision for impairment loss amounting to TRY 2,963 for real estates held for resale as per the appraisals performed at the year end (December 31, 2009 – TRY 2,608).

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

XIII. Explanations on Leasing Transactions

Tangible fixed assets acquired by financial leases are accounted for in accordance with TAS No:17. In accordance with this standard, the leasing transactions, which consist of only foreign currency liabilities, are translated to Turkish Lira with the exchange rates prevailing at the transaction dates and they are recorded as an asset or a liability. The foreign currency liabilities are translated to Turkish Lira with the Bank's period end exchange rates. The increases/decreases resulting from the differences in the foreign exchange rates are recorded as expense/income in the relevant period. The financing cost resulting from leasing is distributed through the lease period to form a fixed interest rate.

In addition to the interest expense, depreciation expense is recorded for the depreciable leased assets in each period. The depreciation rate is determined in accordance with TAS No:16 "Accounting Standard for Tangible Fixed Assets" by taking the useful lives into account.

Operating lease payments are recognized as expense in the income statement on a straight line basis over the lease term.

The Bank does not have any leasing transactions as lessor.

XIV. Explanations on Provisions and Contingent Liabilities

Provisions are recognized when there is a present obligation, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by using the Bank's best expectation of expenses in fulfilling the obligation, and discounted to present value if material.

XV. Explanations on Liabilities Regarding Employee Benefits

Defined Benefit Plans

In accordance with existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities over a 30 day salary to each employee who has completed over one year of service, whose employment is terminated due to retirement or for reasons other than resignation or misconduct, and due to marriage, female employees terminating their employments within a year as of the date of marriage, or male employees terminating their employments due to their military service. The Bank is also required to make a payment for the period of notice calculated over each service year of the employee whose employment is terminated for reasons other than resignation or misconduct. Total benefit is calculated in accordance with TAS No:19 "Turkish Accounting Standard on Employee Benefits".

Such benefit plans are unfunded since there is no funding requirement in Turkey. The cost of providing benefits to the employees for the services rendered by them under the defined benefit plan is determined by independent actuaries annually using the projected unit credit method. All actuarial gains and losses are recognized in the income statement.

In calculating the related liability to be recorded in the financial statements for these defined benefit plans, the Bank uses independent actuaries and also makes assumptions and estimation relating to the discount rate to be used, turnover of employees, future change in salaries/limits, etc. These estimations are reviewed annually. The carrying value of provision for employee termination benefits as of March 31, 2010 is TRY 18,729 (December 31, 2009 - TRY 17,556).

Defined Contribution Plans

The Bank pays contributions to Social Security Funds on a mandatory basis. There are no other liabilities related to employee benefits to be provisioned.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

XVI. Explanations on Taxation

Corporate tax

According to the Article 32 of the Corporate Tax Law No. 5520, announced in the Official Gazette dated June 21, 2006, the corporate tax rate is 20%.

The tax legislation, requires advance tax of 20% to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset from the final tax liability for the year.

Tax returns are required to be filed between the first and twenty-fifth day of the fourth month following the balance sheet date and paid in one installment until the end of the related month.

Tax provision related with items that are credited or charged directly to equity are charged or credited to equity. As at March 31, 2010 TRY 3,726 (December 31, 2009 - TRY 5,386) deferred tax which is related with items recorded in the equity was net off under equity in "Marketable Securities Valuation Differences".

According to the Corporate Tax Law, tax losses can be carried forward for a maximum period of five years following the year in which the losses are incurred. Tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

Deferred Tax Liability / Asset

The Bank calculates and reflects deferred tax asset or liability on timing differences which will result in taxable or deductible amounts in determining taxable profit of future periods.

As of March 31, 2010 and December 31, 2009, in accordance with TAS No: 12 "Turkish Accounting Standard on Income Taxes" and the changes in the circular of BRSA numbered BDDK.DZM.2/13/1-a-3 dated December 8, 2004, the Bank calculated deferred tax asset on all deductible temporary differences except for general loan reserves, if sufficient taxable profit in future periods to recover such amounts is probable; as well as deferred tax liability on all taxable temporary differences. Deferred tax assets and liabilities are shown in the accompanying financial statements on a net basis.

The net deferred tax asset is included in deferred tax asset and the net deferred tax liability is reflected under deferred tax liability on the balance sheet. The deferred tax benefit of TRY 5,572 (March 31, 2009 – TRY 15,918 deferred tax charge) is stated under the tax provision in the income statement. The deferred tax of TRY 3,726 (December 31, 2009 - TRY 5,386) resulting from differences related to items that are debited or charged directly to equity is netted with these accounts.

Furthermore, as per the above circular of BRSA, deferred tax benefit balance resulting from netting of deferred tax assets and liabilities should not be used in dividend distribution and capital increase.

XVII. Additional Explanations on Borrowings

The borrowing costs related to purchase, production, or construction of qualifying assets that require significant time to be prepared for use and sale are included in the cost of assets until the relevant assets become ready to be used or to be sold. Financial investment income obtained by temporary placement of undisbursed investment loan in financial investments is offset against borrowing costs qualified for capitalization.

All other borrowing costs are recorded to the income statement in the period they are incurred.

There are no debt securities issued by the Bank.

The Bank has not issued convertible bonds.

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS

XVIII. Explanations on Issued Share Certificates

None.

XIX. Explanations on Acceptances

Acceptances are realized simultaneously with the payment dates of the customers and they are presented as probable commitments in off-balance sheet accounts.

XX. Explanations on Government Incentives

There are no government incentives utilized by the Bank.

XXI. Explanations on Reporting According to Segmentation

The Bank mainly operates in retail and corporate banking segments.

XXII. Explanations on Other Matters:

BNP Paribas, holding 50% of TEB Mali Yatırımlar A.Ş. which holds the controlling shareholding of 84.25% of the Bank, has acquired 75% of the shares of Fortis Bank Belgium being the main shareholder of Fortis Bank A.Ş. with 94.11% shareholding, from the State of Belgium based on the resolutions taken at Fortis Holding General Assembly of Shareholders held in Belgium and Netherlands on April 28 and 29, respectively. The share transfer procedures were completed as of May 13, 2009.

In this respect, as explained also in the Special Public Disclosure of the Bank dated June 22, 2009, the Bank has signed a confidentiality agreement with Fortis Bank A.Ş. in order to exchange information and assess the options for several corporate structures. These assessments take place solely for consultation purposes and do not intend to make decisions regarding any business transactions.

On September 23, 2009, BRSA has announced its consent on indirect acquisition of 70.52% of total shares of Fortis Bank A.Ş. by BNP Paribas as per the 18th article of Banking Act No: 5411.

SECTION FOUR

INFORMATION ON FINANCIAL STRUCTURE

I. Explanations Related to the Capital Adequacy Standard Ratio

The method used for risk measurement in determining capital adequacy standard ratio; Capital Adequacy Standard Ratio is calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks ", which was published on November 1, 2006 in the Official Gazette numbered 26333 and the Communiqué on "The Amendment in the Communiqué on Measurement and Assessment of Capital Adequacy of Banks" which was published on October 10, 2007 in the Official Gazette numbered 26669. The Bank's unconsolidated capital adequacy ratio in accordance with the related Communiqué is 16.31% at March 31, 2010. (December 31, 2009 - 17.70%)

In the computation of capital adequacy standard ratio, information prepared in accordance with statutory accounting requirements are used. Additionally, the market risk amount is calculated in accordance with the Communiqué on the "Measurement and Assessment of Capital Adequacy of Banks" and is taken into consideration in the capital adequacy standard ratio calculation.

The values deducted from the capital base in the shareholders' equity computation are excluded while calculating risk-weighted assets, non-cash loans and contingent liabilities. Assets subject to depreciation and impairment among risk-weighted assets are included in the calculations over their net book values after deducting the relative depreciations and provisions.

While calculating the basis of non-cash loans subject to credit risk, the net receivable amount from the counter parties net of provision amount set in accordance with the "Communiqué on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves" is multiplied by the loan conversion rates presented in the Article 5, the Clause 1 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", and calculated by applying the risk weights presented in the Capital Adequacy Analysis Form.

Receivables from counter parties from derivative foreign currency and interest rate transactions are multiplied by the loan conversion rates presented in the Article 5, the Clause 2 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", and calculated by applying the risk weights presented in the Capital Adequacy Analysis Form.

II. Explanations Related to Credit Risk

Credit risk is the risk that the Bank is a party in a contract whereby the counterparty fails to meet its obligation and cause to incur a financial loss.

The credit allocation is performed on a debtor and a debtor group basis within the limits. In the credit allocation process, many financial and non-financial criteria are taken into account within the framework of the internal rating procedures of the Bank. These criteria include geographical and sector concentrations. The sector concentrations for loans are monitored closely. In accordance with the Bank's loan policy, the rating of the companies, credit limits and guarantees are considered together, and credit risks incurred are monitored.

The credit risks and limits related to treasury activities, the limits of the correspondent banks that are determined by their ratings and the control of the maximum acceptable risk level in relation to the equity of the Bank are monitored daily. Risk limits are determined in connection with these daily transactions, and risk concentration is monitored systematically concerning off-balance sheet operations.

As prescribed in the Communiqué on "Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves", the credit worthiness of the debtors of the loans and other receivables is monitored regularly. Most of the statement of accounts for the loans are derived from audited financial statements. The unaudited documents result from the timing differences between the loan allocation and the audit dates of the financial statements of the companies and subsequently the audited financial statements are obtained from the companies. Credit limits are determined according to the audited statement of accounts, and guarantee factors are developed in accordance with the decision of the credit committee considering the characteristics of the transactions and the financial structures of the companies.

For the forward transactions and other similar positions of the Bank, operational limits are set by the Board of Directors and the transactions take place within these limits.

The fulfillment of the benefits and proceeds related to forward transactions is realized at maturity. However, in order to minimize the risk, counter positions of existing risks are entered into in the market.

Indemnified non-cash loans are subject to the same risk weight as outstanding loans matured but not yet paid.

Since the volume of the restructured loans is not material to the financial statements, no additional follow up methodology is developed, except as stated in the regulations.

Financial institutions abroad and country risks of the Bank are generally taken for the financial institutions and countries that are rated at investment level by international rating agencies and which do not have the risk of failing to meet minimum obligations. Therefore, the probable risks are not material when the financial structure of the Bank is concerned.

The Bank does not have a material credit risk concentration as an active participant in the international banking market when the financial operations of the other financial institutions are concerned.

As of March 31, 2010, the receivables of the Bank from its top 100 cash loan customers amount to TRY 1,773,218 (December 31, 2009 – TRY 1,712,095) with a share of 18.66% in total cash loans (December 31, 2009 – 19.45%).

As of March 31, 2010, the receivables of the Bank from its top 100 non-cash loan customers amount to TRY 1,286,132 (December 31, 2009 – TRY 1,250,742) with a share of 35.23% in total non-cash loans (December 31, 2009 – 36.48%).

Carrying amount per class of financial assets whose terms have been renegotiated:

	Current Period	Prior Period
Loans and advances to customers		
Corporate lending	87,601	77,134
Small business lending	46,072	45,587
Consumer lending	3,469	4,529
Credit cards	7,359	8,183
Other	-	-
Total	144,501	135,433

Credit Rating System

The credit risk is assessed through the internal rating system of the Bank, by classifying loans from highest grade to lowest grade according to the probability of default. As of March 31, 2010 consumer loans and small business loans are excluded from the internal rating system of the Bank. Additional scoring methodologies are applied for these loans. The risks that are subject to rating models can be allocated as follows:

Category	Description of Category	Share in the Total %
1st Category	Case where the borrower has a very strong financial structure	24.58
2nd Category	Case where the borrower has a good financial structure	23.32
3rd Category	Case where the borrower has an intermediate level of financial structure	45.38
4th Category	Case where the financial structure of the borrower has to be closely monitored in the medium term	6.72
Total		100.00

III. Explanations Related to Market Risk

The Bank has established market risk management operations and taken the necessary precautions in order to hedge market risk within its financial risk management purposes, in accordance with the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks” issued on Official Gazette dated November 1, 2006 numbered 26333.

The Board of Directors determines the limits for the basic risk that the Bank is exposed to. Those limits are revised periodically in line with the market forces and strategies of the Bank. Additionally, the Board of Directors has ensured that the risk management division and senior management has taken necessary precautions to describe, evaluate, control and manage risks faced by the Bank.

Interest rate and exchange rate risks, arising from the volatility in the financial markets, of the financial positions taken by the Bank related to balance sheet and off-balance sheet accounts are measured, and in the computation of capital adequacy, the amount subject to VAR calculated by using the standard method (summarized below) is taken into consideration. Besides the standard method, VAR is calculated by using internal model as supported by scenario analysis and stress tests. VAR is calculated daily by three different methods which are historic simulation, Monte Carlo simulation and parametric method, and results are reported daily to the management.

a) Information Related to Market Risk

	Amount
(I) Capital Requirement to be Employed For General Market Risk - Standard Method	18,704

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

IV. Explanations Related to Currency Risk

Foreign currency risk indicates the probability of loss that banks are subject to due to the exchange rate changes in the market. While calculating the share capital requirement, all foreign currency assets, liabilities and forward transactions of the Bank are taken into consideration and value at risk is calculated by using the standard method.

The Board of Directors sets limits for the positions, which are followed up daily. Any possible value changes in the foreign currency transactions in the Bank's positions are also monitored.

As an element of the Bank's risk management strategies, foreign currency liabilities are hedged against exchange rate risk by derivative instruments.

The Treasury Department of the Bank is responsible for the management of Turkish Lira or foreign currency price, liquidity and affordability risks that could occur in the domestic and international markets within the limits set by the Board of Directors. The monitoring of risk and risk related transactions occurring in the money markets is performed daily and reported to the Bank's Asset-Liability Committee on a weekly basis.

As of March 31, 2010, the Bank's net short position is TRY 224,771 (December 31, 2009 - TRY 18,435 net long) resulting from short position on the balance sheet amounting to TRY 359,253 (December 31, 2009 - TRY 517,674 short) and long position on the off-balance sheet amounting to TRY 134,482 (December 31, 2009 - TRY 536,109 long).

The announced current foreign exchange buying rates of the Bank at March 31, 2009 and the previous five working days in full TRY are as follows:

	24.03.2010	25.03.2010	26.03.2010	29.03.2010	30.03.2010	31.03.2010
USD	1.5348	1.5344	1.5266	1.5236	1.5215	1.5157
CHF	1.4347	1.4320	1.4261	1.4321	1.4305	1.4252

IV. Explanations Related to Currency Risk (continued)

Foreign currency sensitivity:

The Bank is mainly exposed to EUR and USD currency risks.

The following table details the Bank's sensitivity to a 10% increase and decrease in the TRY against USD and EUR. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. A positive number indicates an increase in profit or loss and other equity in the case of short position and a decrease in the case of long position where the TRY strengthens against USD and EUR.

	Change in currency rate in %	Effect on profit or loss		Effect on equity (*)	
		March 31, 2010	December 31, 2009	March 31, 2010	December 31, 2009
USD	10 increase	(9,647)	(157)	197	396
USD	10 decrease	9,647	157	(197)	(396)
EUR	10 increase	(15,400)	3,214	70	77
EUR	10 decrease	15,400	(3,214)	(70)	(77)

(*) The effect on equity does not include the effect of changes in foreign exchange rate on the income statement.

The Bank's sensitivity to foreign currency rates have not changed significantly during the current period. The positions taken in line with market expectations can increase the foreign currency sensitivity from period to period.

V. Explanations Related to Interest Rate Risk

Interest rate risk shows the probability of loss related to the changes in interest rates depending on the Bank's position, and it is managed by the Asset-Liability Committee. The interest rate sensitivity of assets, liabilities and off-balance sheet items related to this risk are measured by using the standard method and included in the market risk for capital adequacy.

The first priority of the risk management department is to protect from interest rate volatility. Duration, maturity and sensitivity analysis performed within this context are calculated by the risk management department and reported to the Asset-Liability Committee.

Simulations on interest income are performed in connection with the forecasted economic indicators used in the budget of the Bank.

The Bank management monitors the market interest rates on a daily basis and revises the interest rates of the Bank when necessary.

Since the Bank does not allow maturity mismatches or imposes limits on mismatch, no significant interest rate risk exposure is expected.

Interest rate sensitivity:

If interest rates had been increased by 0.5% in TRY and FC and all other variables were held constant, the Bank's:

- Net profit for the year would have changed by TRY 2,636 (December 31, 2009 – TRY 3,872).

The interest rate sensitivity the Bank is exposed to due to its balance sheet composition is calculated with the net interest income approach. The net interest income is calculated by using the original interest rates until maturity and using market interest curves until the remaining annualized period subject to analysis. This calculation is re-performed by altering the market interest curves based on rate changes accepted by management. The difference between the initial and re-performed calculation is assessed to be the interest sensitivity of the Bank.

VI. Explanations Related to Liquidity Risk

Liquidity risk occurs when there is insufficient cash or cash inflows to meet the cash outflows completely and timely.

Liquidity risk may also occur when the market penetration is not adequate, when the open positions cannot be closed quickly at suitable prices and sufficient amounts due to barriers and break-ups at the markets.

The Bank's policy is to establish an asset structure that can meet all kinds of liabilities by liquid sources at all times. In this context, liquidity problem has not been faced in any period. In order to maintain this, the Board of Directors of the Bank continuously determines standards for the liquidity ratios, and monitors them.

According to the general policies of the Bank, the matching of the maturity and interest rate structure of assets, and liabilities is always established within the asset liability management strategies. A positive difference is tried to be established between the yields of TRY and foreign currency assets and liabilities on the balance sheet and their costs. According to this strategy, the Bank manages its maturity risk within the limits determined by Bank's Board of Directors.

When the funding and liquidity sources are considered, the Bank covers majority of its liquidity need from deposits, and in addition to this source, it makes use of pre-financing and syndication products to generate additional sources. Generally the Bank is in a lender position.

The liquidity position is assessed and managed under a variety of scenarios, giving due consideration to stress factors relating to both the market in general and specifically to the Bank. The most important of these is to maintain limits on the ratio of net liquid assets to customer liabilities, set to reflect market conditions. The ratios realized during the year were as follows:

	Current Period	Prior Period
	%	%
Average during the period	20	29
Highest	24	39
Lowest	18	20

NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

II. Explanations and Disclosures Related to the Liabilities (continued)

- c) Additional explanation related to the concentrations of the Bank's major liabilities:

Bank diversifies its funding resources by the customer deposits and by the foreign borrowings. As of March 31, 2010, the Bank has a syndication loan of EUR 190,000,000 and USD 92,000,000, obtained on December 2, 2009 with a maturity of November 24, 2010, under foreign borrowings.

Bank makes analysis of its customers that provide the maximum amount of funds within the branches and throughout the Bank, in consideration of profitability. Bank takes short and long term preventive measures to spread its customers on a wider spectrum on the basis of customer concentration in the branches.

Information on funds provided from repurchase agreement transactions:

	Current Period		Prior Period

c) Explanations on deferred tax liabilities, if any: None (December 31,2009 – None)

9. Information on liabilities regarding assets held for sale and discontinued operations: None (December 31, 2009 – None).

10. Explanations on the number of subordinated loans the Bank used, maturity, interest rate, institution that the loan was borrowed from, and conversion option, if any:

The Bank has signed an agreement with the International Finance Corporation (IFC) on July 17, 2002, for a subordinated loan of USD 15 million. The maturity of the loan is October 15, 2011 and interest rate is LIBOR+2.85%. USD 3 million principle of this subordinated loan was paid on October 15, 2009 in accordance with the terms of the main agreement.

The Bank has signed another agreement with the IFC on June 27, 2005, for a subordinated loan. The facility is a USD 50 million subordinated loan, with a maturity of July 15, 2015 and with an interest rate of LIBOR+3.18%.

The Bank has signed an agreement with the Economy Luxembourg S.A on October 27, 2006 for a subordinated loan. The facility is a EUR 110 million subordinated loan, with a maturity of October 31, 2016, and with a fixed interest rate of 6.10%.

The Bank has obtained a primary subordinated loan by issuing a bond amounting to USD 100 million as of July 31, 2007. The investor of the bond is IFC International Finance Corporation (IFC). The maturity of the borrowing is indefinite with semi-annually interest payment. The interest rate is defined as LIBOR+3.5% until July 31, 2017. In case the borrowed amount is not repaid at that date, the interest rate will be revised as LIBOR + 5.25%.

Each of the four of the above facilities match BRSA's subordinated loan-capital definitions and contribute to the Bank's capital adequacy ratio in a positive manner, as well as creating long term financing.

(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

II. Explanations and Disclosures Related to the Liabilities (continued)

11. Information on Shareholders' Equity: (continued)

- f) Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of these future assumptions on the Bank's equity due to the uncertainty of these indicators:

Prior year income, profitability and liquidity of the Bank is closely monitored and reported to Board of Directors, Asset and Liability Committee, and Risk Management by the Budget and Financial Control Group. This group tries to forecast the effects of interest, currency and maturity fluctuations that change these indicators with static and dynamic scenario analysis. Net asset value, which is defined as the difference of fair values of assets and liabilities, is measured. Expectations are made for Bank's future interest income via simulations of net interest income and scenario analysis.

- g) Information on preferred shares:

7% of the Bank's remaining net income after tax subsequent to deducting legal reserves and first dividends, corresponding to the Bank's 60,000 shares of TRY 30 (in full TRY) is distributed to the founder shares.

As of March 31, 2010, the Bank has no cash flow hedges. (December 31, 2009: None.)

As of March 31, 2010, the Bank has no hedge of net investment in foreign operations. (December 31, 2009: None.)

TÜRK EKONOMİ BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD FROM JANUARY 1 TO MARCH 31, 2010
(Amounts expressed in thousands of Turkish Lira (TRY) unless otherwise stated.)

III. Explanations and Disclosures Related to the Off-Balance Sheet Contingencies and Commitments (continued)

3. Explanations on contingent liabilities and assets:

- a.1) The Bank's share in contingent liabilities arising from entities under common control (joint ventures) together with other venturer: None.
- a.2) Share of entity under common control (joint ventures) in its own contingent liabilities: None.
- a.3) The Bank's contingent liabilities resulting from liabilities of other venturers in entities under common control (joint ventures): None.
- b) Accounting and presentation of contingent assets and liabilities in the financial statements:
 - b.1) Contingent assets are accounted for, if probability of realization is almost certain. If probability of realization is high, then it is explained in the footnotes. As of March 31, 2010 there are no contingent assets that need to be explained (December 31,2009 - None).
 - b.2) A provision is made for contingent liabilities, if realization is probable and the amount can be reliably determined. If realization is remote or the amount cannot be determined reliably, then it is explained in the footnotes: As of March 31, 2010 there are no contingent liabilities that need to be explained (December 31,2009 - None).

4. Custodian and intermediary services:

The Bank provides trading and safe keeping services in the name and account of third parties, which are presented in the statement of contingencies and commitments.

Investment fund participation certificates held in custody which belong to the customers and the portfolio are accounted for with their nominal values.
