## **PRESS RELEASE**

# **TEB IS CONTINUING ITS PROGRESS IN RETAIL BANKING**

**Türk Ekonomi Bank (TEB) is continuing its progress in retail banking following the partnership with the world's sixth and Eurozone's largest bank BNP Paribas.**

Türk Ekonomi Bank (TEB) opened its Gölcük Branch on February 26th, 2007. Regional clients and TEB officials came together at the opening cocktail party organized by TEB.

TEB Branch Manager Sibel Tuncer said that TEB was aiming to open new branches in various cities in Turkey in 2007 and added: "2006 was truly a revolutionary year for TEB in banking. Thus far, we were known for our successes in corporate banking. This year we were able to manifest our strength and difference in retail banking as well".

**2006 was the year of new products for TEB. 2007 will be the year of retail banking.**

In 2006, TEB created the "TEB Bonus Card" as a result of the strategic partnership it established with the first name in credit cards, Bonus Card. Clients who preferred TEB Bonus Card were awarded 15 TL as a welcoming gift.

TEB, as an innovator in personal loan solutions, manifested its difference in the banking sector with the "Express loan" for which applications are made by mobile phones and the result of the application is communicated to the client within 60 seconds.

Aside from the Express Loan, TEB is continuing to offer clients solutions with suitable interest rates and due dates for personal, needs, house, vehicle and yacht loans.

"Overdraft Account" which lets the clients make automated payments, withdraw cash, and make credit card payments and money transfers when there are insufficient funds in current deposit accounts is one of the products with which TEB makes its clients lives easier.

"Mobile payment" system, which is a result of the partnership established with Turkcell, lets clients do their shopping easily and in a secure environment just by using their mobile phones. "Mobile payment" system is one of the retail banking products that manifests the advantages of being a TEB client.
