

Cash withdrawal from ATM via QR Code, how does it work ?

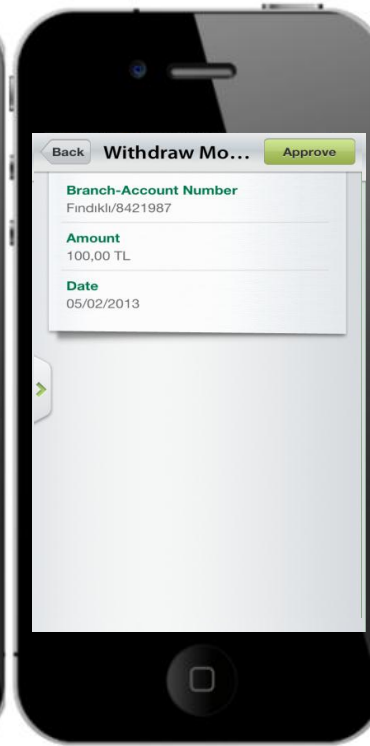

After selecting QR code icon in main menu, user signs into system with User Name, Password and 2nd Factor Authentication.

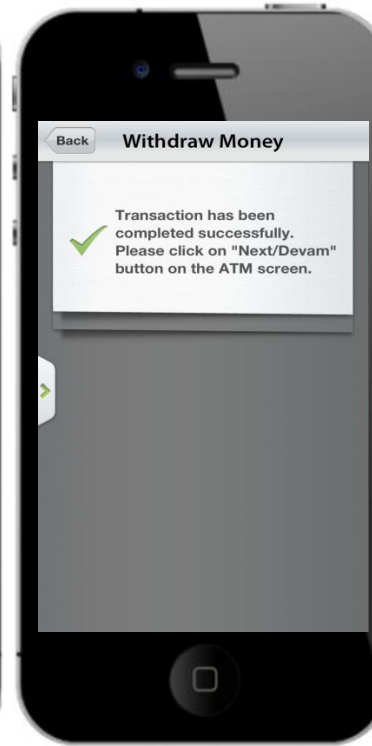

Select the account and amount information

Click on «GİRİŞ /ENTER » button on ATM and select « Cash withdrawal with CEPTETEB» function. ATM produces a QR Code and user scans it by using mobile phone.

Approve Amount and account details in CEPTETEB screen.

Click on «DEVAM/NEXT» button on ATM and get your money instantly!
